

**WELCOME** to the latest edition of Diamond Hire and Sales' Newsletter. The last few months have seen the arrival of several exciting new pieces of plant at our base in Farnborough. These new machines complement our hire fleet of drilling, sawing and demolition equipment. Our ongoing renewal program will ensure we continue to provide you with the right tools for the right job. Please feel free to contact Tom at any time to discuss your hire requirements.

## New diesel generator comes online at Diamond Hire and Sales

**HIRE SPECIALIST DIAMOND HIRE AND SALES** has taken delivery of a new diesel generator. The latest addition compliments the company's extensive fleet of mobile generators already available for hire across the South

East. It offers the user 30Kva three phase power in 63amp or 32amp supply. Available for both long and short term rental the generator is ideally suited for autonomous electricity provision in the building and hospitality sectors.

## Baby concrete crusher delivered to Diamond Hire and Sales

**HIRE SPECIALIST DIAMOND HIRE AND SALES** have taken delivery of a new Hi-C40 mini crusher. The featherweight machine weighs just 920kg and with a width of only 700mm can fit through most doorways. Made in the UK, the tracked Hi-C40 has a 1150mm loading height and a 400mm x 400mm inlet. Whilst it may be small in appearance the machine boasts a 60 tonne crushing force and can produce material ranging in size from 20mm to 70mm. The Hi-C40 has already been hired by several building

contractors keen to recycle concrete waste and use the crushed arisings elsewhere on site. The pint sized crusher is capable of saving costs twice over by negating the double expense of waste removal and buying in crushed hardcore. "For many of our clients it's a win-win machine. Its compact size allows crushing to be viable and profitable on small sites with the price of hiring the machine easily outweighed by the savings it can achieve.", remarks Diamond Hire's Sales' Manager Tom Holmes.

## Brokk Demolition Robots For Hire

**DIAMOND HIRE AND SALES** offer one of the UK's largest selection of Brokk remote controlled demolition robots for hire. The Brokks are ideal for projects where zero emission, remotely operated machines are required, for example, the demolition of concrete crane

bases located beneath building works. Six different models of Brokk robot available for hire ensuring that whatever the job there is always the right machine available. Please call to discuss your requirements as we can offer a range of machines from mi-

cro robots, such as the Brokk 90, which fits through a standard doorway, right up to the mighty 4500kg, steel tracked, Brokk 330. All our machines are available with a selection of attachments including hammers, shears, grapples and buckets.
