

SPE 12ES and 9EG AUTO BLAST MACHINES

SPE 12ES and 9EG Auto Blast Machines:

- SPE 12ES and the smaller SPE 9EG are compact floor blasting machines suitable for small contractors and the rental industry
- Self propelled and infinitely variable in all operations. Electrically powered
- Recognised in industry as the modern fast versatile environmental dust free means to dry abrasive cleaning and texturing of horizontal or slightly inclined surfaces. This eliminates mess normally associated with hand blasting
- Leaves an ideal surface for coatings and overlays to be applied.

APPLICATIONS

Construction Engineering and Roads:

- Removal of old coatings
- Exposing aggregates
- Providing nonslip surfaces
- Removing rubber deposits
- Laitance removal on new concrete floors
- Multi-storey car parks
- Shopping precincts
- Food processing plants
- Cleaning and texturing granolithic and tiled floors
- Aircraft hangers
- Cold stores
- Pedestrian crossings
- Bus depots
- Engineering workshops, factories and warehouses

Shipping and Petrochemical:

- Steel preparation to sa3 standard
- Storage tank roofs and internal floor
- Ship decks
- Steel plates
- Offshore platforms, walkways and helidecks
- Ro-ro bridges
- Ferries
- Foot bridges
